Short bio

Noah Cheyer is the founder of Silicon Valley Speakers Bureau and a builder of practical AI tools for the event industry. He co-founded Speak About AI as one of the first AI-only speaker agencies and built SVSB's entire tech stack with AI for under \$200. His Event Timeline Generator GPT has 2,000+ users, and every keynote or workshop he runs ends with tools the audience can use that week.

Speaking topics

Where AI Delivers Real ROI

Keynote · 45–60 min

Every task in the audience's workflow scored 0–10 using the AI Events Capability Framework. Live demos, examples from 100+ event professionals, three custom AI tools they take home, and a personalized AI Readiness Scorecard.

AI in Events: Do More With Less

Workshop · 90 min · Hands-on

Participants map their workflows to a 0–10 AI Readiness Scale and sort tasks into automate / augment / keep human. They leave with the Event Timeline Generator built and customized live, plus a 30-day implementation roadmap.

AI as Your Strategic Advisory Board

Workshop · 90 min

Use AI to step into CFO, CMO, CEO, and COO mindsets. Build custom GPTs that help event pros analyze challenges from multiple executive perspectives and write business cases that land with the C-suite.
